

## 2PC ULTRA-PRECISION 1-2-3 BLOCK SET

Features:

- Heat treated and case hardened to HRC 58-62 on 6 sides.
- 23 holes consists of 5 tapped holes that are 3/8"-16 for clamping and 18 untapped holes.
- Cross drilling design gives minimum weight and maximum strength.
- Each set contain two matched blocks in pairs.
- Packed in a fitted strong case.

EG28-0421

Item	Size	Desc.	Parallelism	Squareness	Size Range	Price
EG28-0421	1-2-3"	23 Holes	0.0002"	0.0001"/1"	±0.0002"	\$000.00/SET
EG28-0420	1-2-3"	23 Holes	0.0002"	0.0003"/1"	±0.0002"	\$000.00/SET

## 5PC PREMIUM MAGNETIC PARALLEL SET

Features:

- Height tolerance is ±0.005mm.
- Width tolerance is ±0.01mm.
- Hardness is HRC 55-60.
- Reduces the clamping time by up to 10%.
- Precision ground as pairs.
- Excellent in high precision work for mounting parallel components in machine vises or jigs.
- Shipping weight: 3.4 lbs.
- Aluminum fitting case.

Item	Length	Width	Height	Price
