### QUICK CHANGE TOOL POST

- Both Wedge and Piston posts are precision engineered to assure repetitive accuracy. Advanced design provides built-in quick tool changing versatility with positive rigidity
  to meet the most exacting tolerances.
   Quickly and easily installed on an engine, bench, or turret lathe for a wide range of
  operations, from fine-precise work to heavy-duty cutting.
- Piston type posts are economical, while the wedge type posts are clearly ultra-precise. Both accept the toolholders and interchange with Aloris, Dorian, and DTM tooling.

Piston Style

#### Two different styles-piston or wedge **Piston Style**
